MINISTRY OF WORKS & HUMAN SETTLEMENT  
DEPARTMENT OF ENGINEERING SERVICES  
THIMPHU: BHUTAN

*"Construction Industry: Solutions through innovation and improved technology"*

Subject: **Invitation of Application for Training on Design of Energy Efficient Buildings (First Come First Serve Basis)**

The Department of Engineering Services along with other agencies are carrying out the ADA funded project, "Promotion of Renewable Energy and Energy Efficient Technology in the Building Sector in Bhutan". The project addresses various aspects pertaining to energy efficiency ranging from capacity development to review of policies.

One of the key objectives of the project is the enhancement of capacity of the building sector of Bhutan in terms of energy efficiency. In trying to be inclusive and holistic, the Department aims to train public, private and education sector in terms of **energy efficient building design**. The training will cover topics such as building physics, simulation tool, calculations, building components, comfort measurement, etc. The participants will be future trainers who will train the building sector in future in terms of EE design should the next phase of this project come to fruition.

The training is scheduled from **7<sup>th</sup> to 20<sup>th</sup> February 2019**. The venue and the detailed schedule of the training will be intimated to the confirmed participants later.

As the Draft National Energy Efficiency and Conservation Policy, and Draft Energy Efficiency Roadmap strives to develop policy towards EE, this training is one of the first steps geared towards readying the building sector of the nation for the development and adoption of future EE interventions. Thus, considering the importance of this endeavour, the Department of Engineering Services invites private Bhutanese designers to participate in the training on EE Building Design. We encourage female participation.

As the targeted venue for training is Paro, and as accommodation and fooding will be provided by the host, applicants are requested to convey their details and accommodation preference (required or not) in their application latest by **31<sup>st</sup> January 2019**.

As the participants will be chosen based on first come first serve basis, interested designers (architects and engineers) may email [keuthra@mowhs.gov.bt](mailto:keuthra@mowhs.gov.bt) with copy to [jdukjey@mowhs.gov.bt](mailto:jdukjey@mowhs.gov.bt), [kdhendup@mowhs.gov.bt](mailto:kdhendup@mowhs.gov.bt), and [karmat@mowhs.gov.bt](mailto:karmat@mowhs.gov.bt).
